

Recombinant Human Prorenin

Catalog Number: P-001

Source: * Recombinant human prorenin was expressed in HEK cells, and purified by ion exchange chromatography.

Purity: * See example SDS-PAGE below.

Activity: * Although the prorenin does not contain renin, it does display a low level (<5%) of renin activity that is intrinsic to the zymogen^a.

Formulation: *Samples can be shipped frozen or lyophilized

Storage: *Samples stored frozen at -20°C are stable for at least six months.
Avoid repeated freeze-thaw cycles.

^a Heinrikson R. L. *et al.* (1989) *Amer. Jour. Hyperten.* 2:367-380.

Quantity	Price
100 µg	\$500/sample
1-1.99 mg	\$2500/mg
2-9.99 mg	\$1700/mg
10-20 mg	\$1,000/mg
